## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Acknowledgment is made of the receipt of the amendment filed on 10/25/02. Claims 1 and 2 are currently pending.

#### ***Claim Rejections - 35 USC § 112***

1. Claims 1 and 2 rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The amendments to claims 1 and 2 comprise the limitation "displaying the second image information on the substrate". The examiner notes that in the specifications "[a]n observer 86 looking down onto semitransparent mirror 82 sees the image generated by image generator 84 overlaid on the image from substrate 89" (page 12, lines 5-6). The second image information is "overlaid" on the image from the substrate instead of "on" the substrate.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2876

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cone (US 4,766,292) in view of Daniele (US 5,444,779).

Cone teaches reading a UPC label on a merchandise item thereby generating data identifying the merchandise item. This data is transmitted to a processing unit 94 which has stored therein lookup tables for use in retrieving the price of the purchased item utilizing the data generated by a scanner 90 in scanning the UPC label. The processing unit 94 will enable a display member 96 to display the price of the merchandise item (col. 3, lines 55-62).

Cone lacks the teaching of embedded glyph data.

Daniele teaches a glyph code within regions 150 or 152 of a document (col. 7, lines 22-24).

One of ordinary skill in the art would have readily recognized that glyph codes have a non-obtrusive appearance that may be more appealing to the eye than a typical UPC code on a product. Therefore, it would have been obvious, at the time the invention was made, to modify the teachings of Cone with the glyph code as taught by Daniele for aesthetic reasons.

***Response to Arguments***

5. Applicant's arguments filed 10/25/02 have been fully considered but they are not persuasive. The arguments are moot since the newly added limitation "displaying the second image information on the substrate" is considered new matter.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
